

IMINPods M acoustic booth - technical specification

	Item	No.	Description
1	Intended use	-	Two person acoustic booth. Internal use only.
2	External dimensions [cm]	-	H 225, L 160, W 130
3	Construction	-	Wooden, modular, timber-framed. Acoustic proof materials, sound-immersive elements, diffusers, bass trap, ESG safety glass
4	Touch-sensitive control panel	1	Integrated motion sensor, touch-sensitive controller of colour temperature, illuminance and fan regulation (0-100%)
5	Finishing - interior	-	Walls: acoustic panels with certified acoustic proof fabric, lacquered element (RAL or NCS palette) Ceiling: bass trap finished with acoustic proof fabric, LED linear lighting Floor: covering with sound dampening layer
6	Finishing	-	Lacquered MDF (RAL or NCS palette), covered with transparent protective varnish
7	230V power supply	2	Socket 2P+Z, 16A-250V
8	USB	1	USB socket 230 V /5 V; 1500mA
9	RJ45	1	RJ45 socket CAT5E FTP
10	230V connection wire	1	3x1,5; lenght: 2,5m, plug 2P+Z, black
11	RJ45 connection wire	1	FTP wire, lenght: 3,5m
12	12V power supply	1	Plug adapter 12V, 4A, lenght - 2,5m
13	Ventilators	2	Airflow: max. 200 m3/h/pcs. Smooth regulation 0-100%
14	LED lighting	1	Linear LED 11W, 200-1200 lm, 3000 - 6000K (controlled by touch-sensitive panel)
15	Motion sensor	1	Integrated with touch-sensitive panel
16	Air inlet	1	Working area 300 cm2
17	Table [cm]	1	H 93, L 80, W 40
18	Glass door + skylight	-	Laminated glass; 5+5mm (total tickness 11mm), safe; tapered; CE certificate
19	Weight	-	480 kg net
